

## **Johann Hitzler**

*Associate Professor, Department of Paediatrics, Hospital for Sick Children, University of Toronto, Canada*

Dr. Hitzler is a member of the Division Hematology Oncology at The Hospital for Sick Children in Toronto, Canada, and specializes in the treatment of childhood leukemia. He is a professor in the Department of Pediatrics at the University of Toronto and a senior scientist in the Program Developmental and Stem Cell Biology at the SickKids Research Institute. His research interest are the leukemias of children with Down syndrome. His experimental research focuses on the molecular events underlying myeloid leukemia in Down syndrome. He is co-chair of the current clinical trial for AML in children with Down syndrome conducted by the Children's Oncology Group (COG, AAML1531) and, as chair of the COG Task Force DS-ALL, involved in the conduct and design of COG trials for children with Down syndrome and acute lymphoblastic leukemia.
